Shin: It's getting cold. I heard on the radio that it might snow this week. Oh, you're not wearing glasses today.

Yasu: No. My glasses fog up when I wear a mask. I've heard that there are masks that keep glasses from fogging up, but I've never seen them. I'm wearing contact lenses today.

Shin: I see. There are so many types of masks right now. But I wonder when we won't have to wear masks anymore.

Yasu: Actually, sometimes I'm glad that I'm wearing a mask.

Shin: Why?

Yasu: My throat often hurts in winter because of the dry air. Since I started to wear a mask all the time, I have had less pain.

Shin: That's a good point.

Yasu: But it'll be nice to be able to talk without wearing masks.

Shin: I'm sure the time will come when we can do that.

Dear Sakura,

Thank you for your message regarding university accommodation. Unfortunately, the student dormitories are currently full. Therefore, we cannot accept your request to stay there. But please do not worry. The university can make arrangements for you to stay with a homestay family.

We understand that not being able to stay at a university dormitory may be disappointing. However, we do recommend our students to stay with a homestay family as it gives more opportunities to practice speaking English and to learn about the local culture.

If you do not want to stay with a homestay family, you can find more information on other housing options on the university website below:

(URL: <http://www.JEU.ac.cn/global/housing/>)

However, if you are interested in our homestay program, then a brochure will be ③ (send) to you. Please contact us if you have any further concerns or questions.

We are here to support you.

Regards,

Global Support Center

I'm Takuya. I am 18 years old and in high school. I live in Aomori.

Around January of 2020, a new type of coronavirus began to spread. I was afraid of this unknown virus. I couldn't go out freely or do what I wanted to do. I felt anxious about the coronavirus.

The spread of the coronavirus has caused a lot of things to happen. One of the hardest things for me is the fact that school events such as school trips, sports festivals and cultural festivals cannot be held as they have been in the past. We were supposed to go to Osaka and Kyoto for a school trip. However, that was cancelled and we decided to travel around Aomori. Nevertheless, this school trip was very memorable for me.

For us students, there are things that we can only experience during school events like this. These opportunities are being lost.

The new coronavirus is very scary, however, thanks to it, I have been able to think about and experience a lot of new things. One of them is that I have more time to spend with my family. My father taught me how to play the guitar. I never knew that my father could play the guitar so well. Even now, playing the guitar with my father is one of my favorite things to do.

Our lives have changed a lot because of the coronavirus. We can no longer do certain things that we used to take for granted, and we now realize how happy we used to be. The coronavirus also taught me to be compassionate. I am grateful to the people who are working despite the risk of infection and to those who are trying to protect us from the coronavirus.
